

Internship Summary

Crowds.io is seeking an intern in the IT department who has experience programming in JavaScript.

Crowds.io is a crowdsourced development platform that empowers entrepreneurs with tools and resources to develop, promote, and crowdfund new products. Our vision is to leverage Web 2.0 and its related technologies to bring the product development process online, making entrepreneurship more accessible.

We currently have 5 members on our team, 2 full-time and 3 part-time. We are looking forward to offering 2 paid internships to students at UWW to help them grow and gain experience in their field outside of the classroom. If the internship goes well, there will be an opportunity to join our team full-time in Milwaukee upon graduation.

Skills Required for the Internship

The main requirement for this internship is that you have some experience coding in JavaScript. Our front end and back end both run on JavaScript, so you will need to have some level of proficiency as a starting point in order to get the most out of this opportunity. Our specific technology stack is called the “Mean Stack” which includes Angular.js, Express.js and Node.js.
