

8020 Worldwide

April 16, 2015

About Us:

8020 Worldwide LLC is an online automotive parts & safety eyewear re-seller doing business as:

[Wipers123.com](#) (this site will be replaced by the beta below)

[Headlights123.com](#) (this site will be replaced by the beta below)

[8020 Wholesale Warehouse on eBay](#)

[8020 Wholesale Warehouse on Amazon](#)

[RallyMotorcycleEyewear.com](#)

[ManShades.com](#)

Founded in 2009 by a UW-Whitewater Marketing Alumni and located in Waterford WI, 8020 is quickly approaching \$500,000 in annual sales. Q1 2015 is showing 70% + growth over 2014. Our current offering is primarily automotive wiper products (wiper blades, washer pumps, wiper arms & high-end glass treatment), automotive light bulbs (OE replacement & upgrade) and safety glasses / safety sunglasses.

Internship Job Description:

Our v2.0 website was developed in India in late 2014. Its 90% complete, however needs tweaking in several areas. Our desire is to release the development company and bring on an intern to make the final changes and then move it to live.

You can view the front-end beta here: [Wipers123.com/Headlights123.com Beta](#)

The back-end beta will be available to candidates later in the interviewing process.

The site is a modified OS Commerce site that needs further "tweaks" to make pages look a certain way or act a certain way. I foresee installation of API's, switching from live to test environments, troubleshooting, etc. Modifications of queries and screens on the back-end. Modifications of front-end pages. Essentially there will be a lot of "This is what it does and this is what I'd like it to do" or, "we're changing credit card processing and/or shipping software, we need to install and test the new API then go live" or, "It looks/acts this way...can we make it look/act this way".

- Proficiency in OS Commerce modification
- HTML
- CSS
- JavaScript (jQuery)
- PHP
- Basic working knowledge MYSQL
- API knowledge/experience

- Targeted Start Date Approximately May 18 2015
- Duration (for the right candidate) could be ongoing beyond this summer on a project-by-project basis, however formal end date is projected to be early-to-mid August and is open for discussion with the candidate.
- Paid Internship
- Schedule / Hours Negotiable
- Location negotiable, however Waterford or SE Wisconsin is preferred (Waterford is approximately 30 minutes east of Whitewater)
- Work from Waterford a minimum of 1 day every week or every other week (to be determined)
- Its important to have proficiency in the skill sets above – we need a candidate who is *practicing* what they already know; not necessarily someone who is *learning* 100% on the job. Site needs to go live ASAP and hopefully well before August 1st.
- Junior/Senior preferred
